

## 1. How to Access SVN

**Repository URL:** As given by instructor or Tech Lead.

**Login ID :** As given by instructor or Tech Lead.

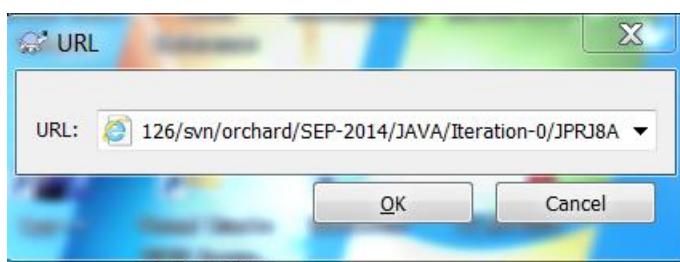

**Password :** As given by instructor or Tech Lead.

## 2. Steps to Checkout code from the repository

Just Right click on the desktop

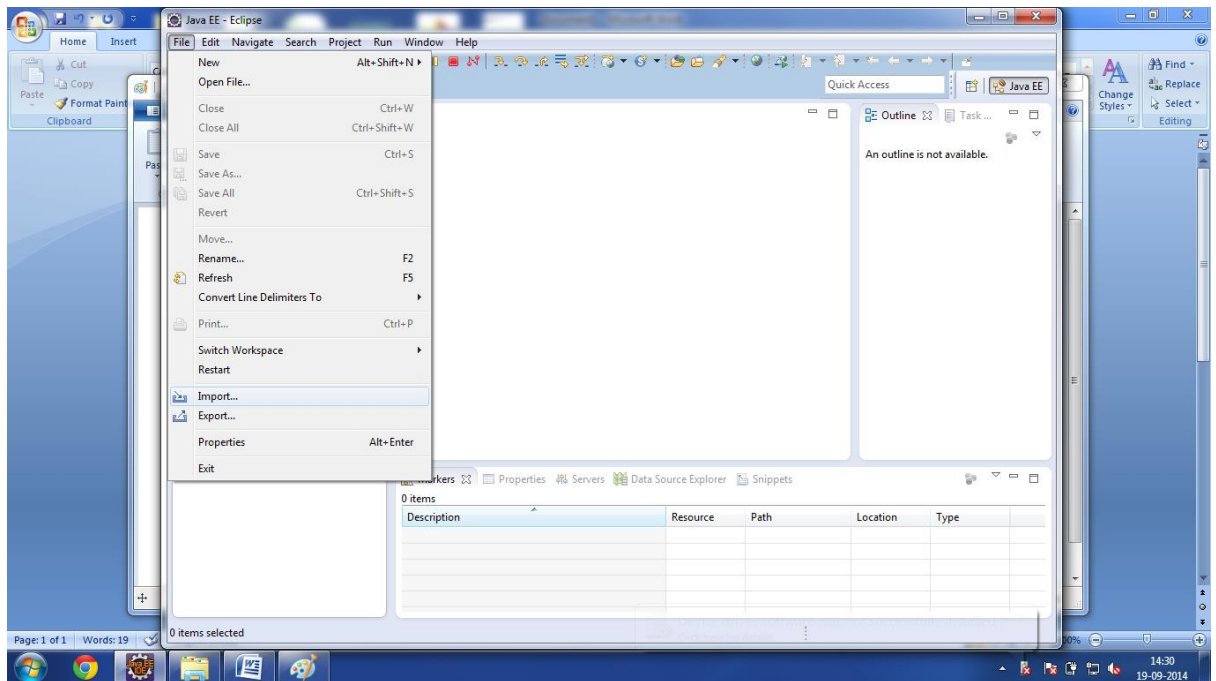

Got to Tortoise SVN and Repo Browser and copy the url of the project in which u are in

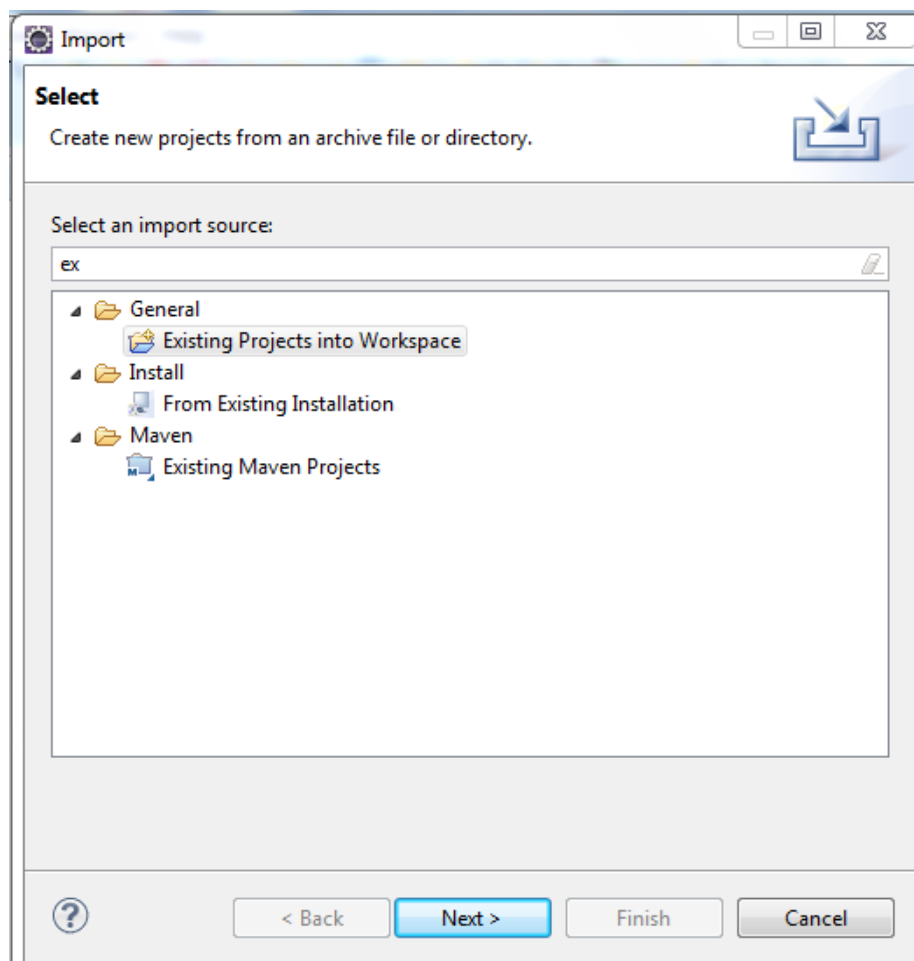

Please note the URL which is specified makes sure it is https not http

3. Open MySQL and run the DB Script “\DB Script\mysqlwithdata-Iteration1.sql”
4. Open Eclipse
5. Select a workspace

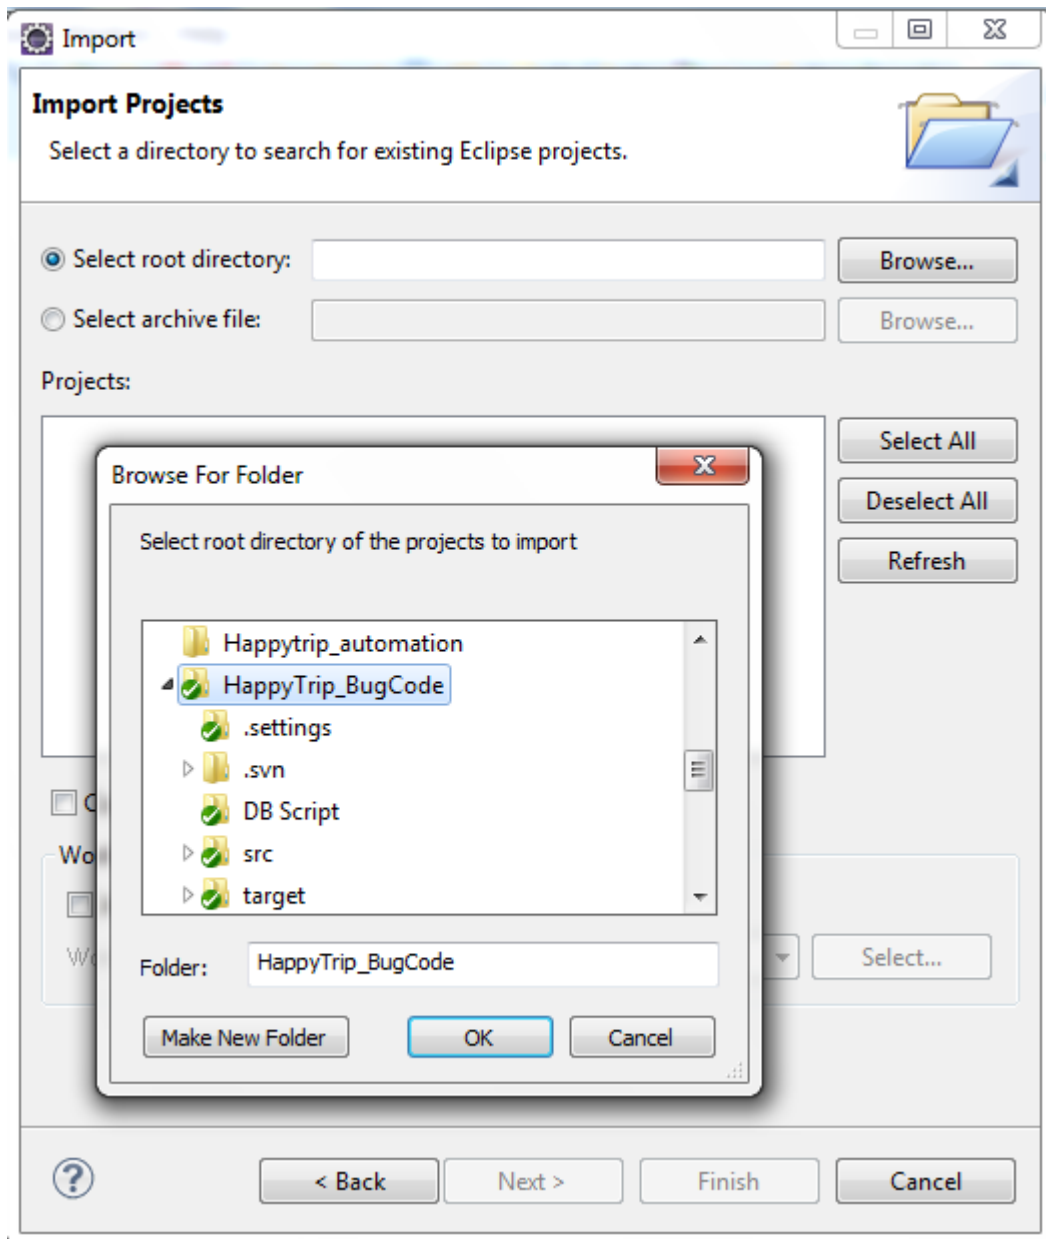

## 6. Click on File -> Import

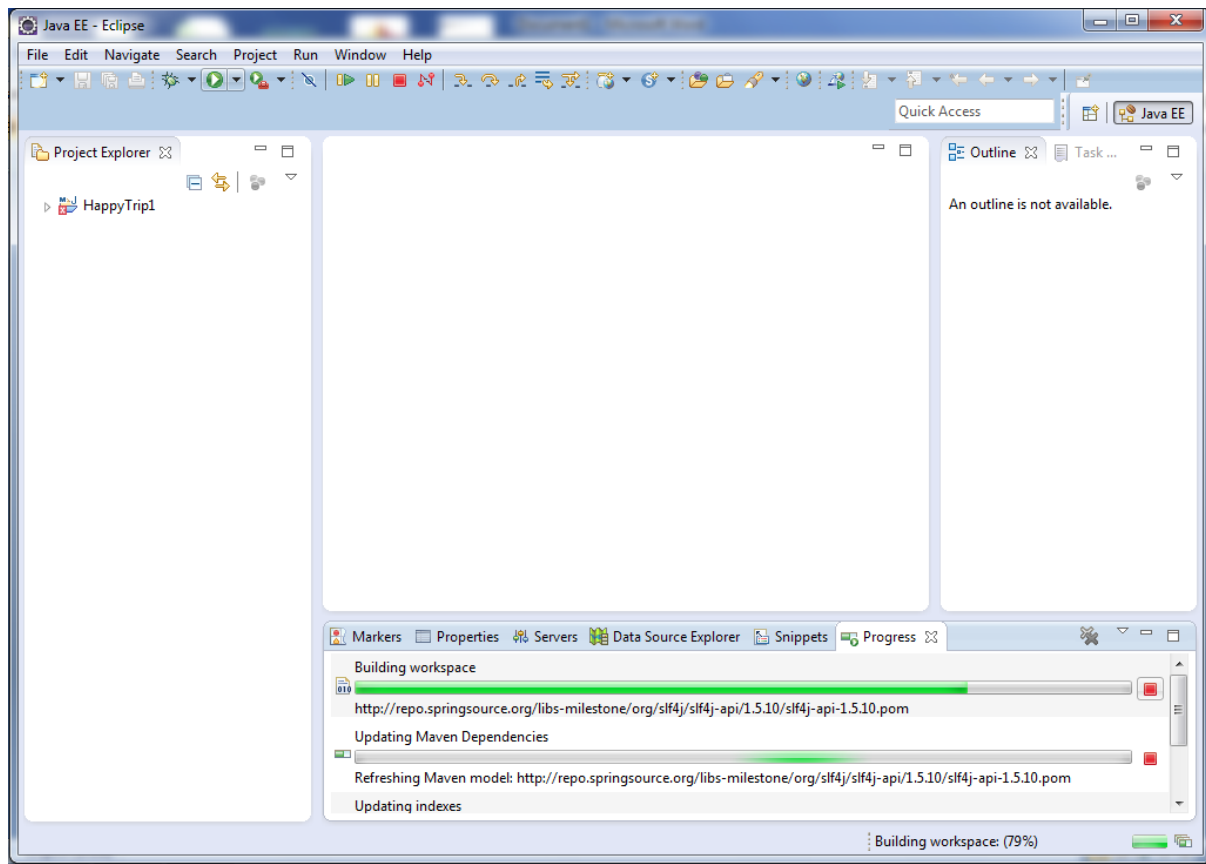

## 7. Click on existing project into workspace

8. Browse to the folder where you have checked out the code

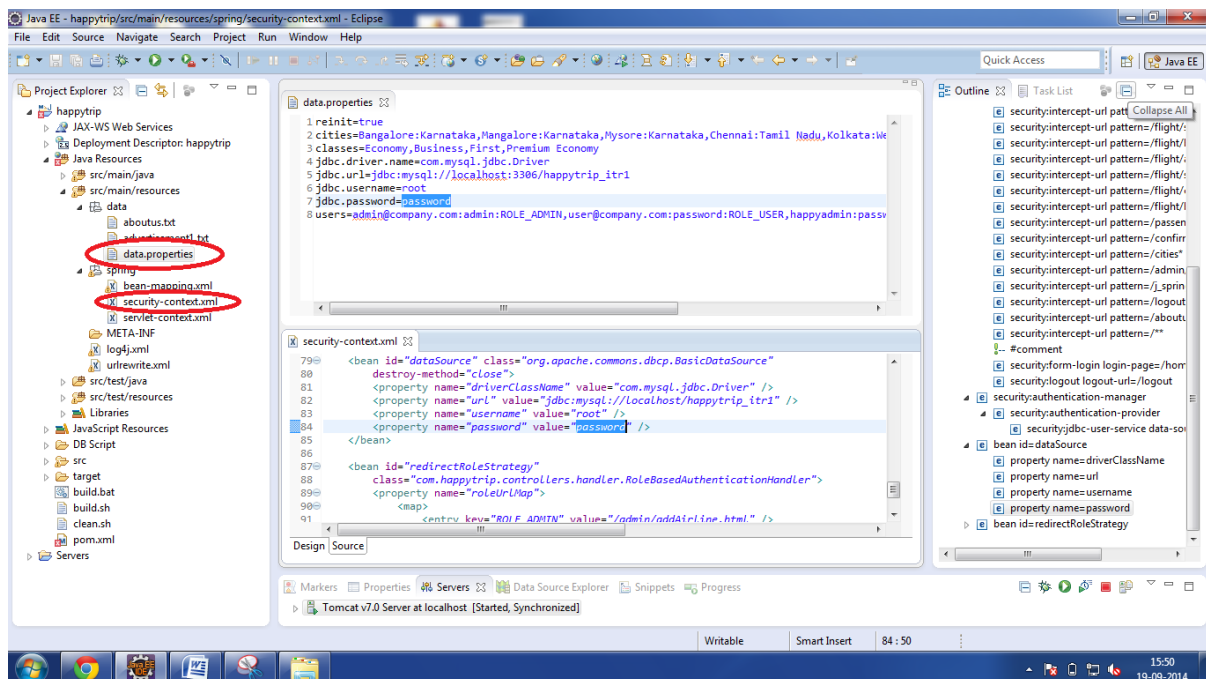

## 9. Click OK -> Finish. Now it will build the workspace

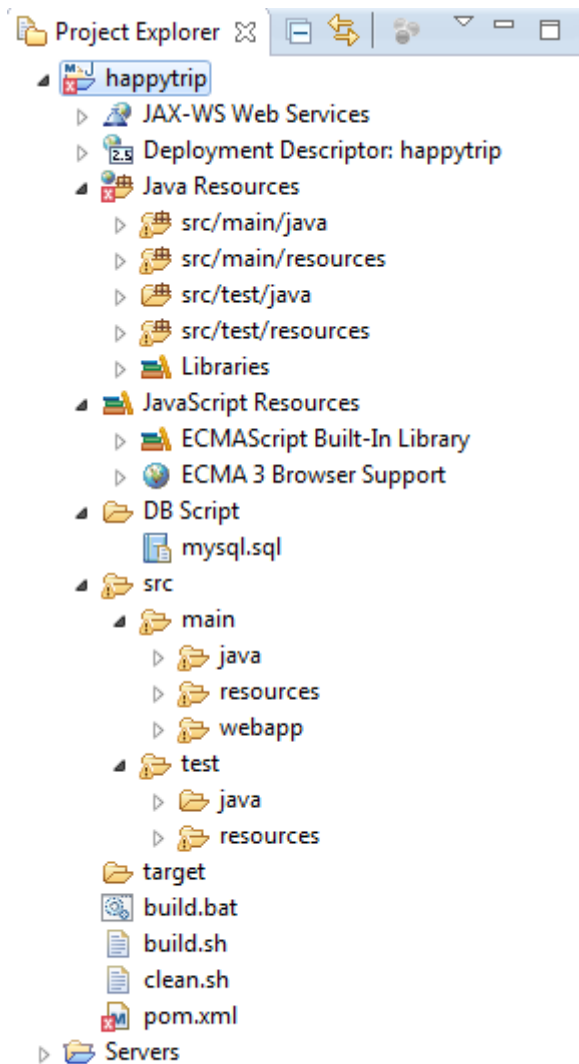

## 10. Now Change the database credentials in the following file

\src\main\resources\data\data.properties

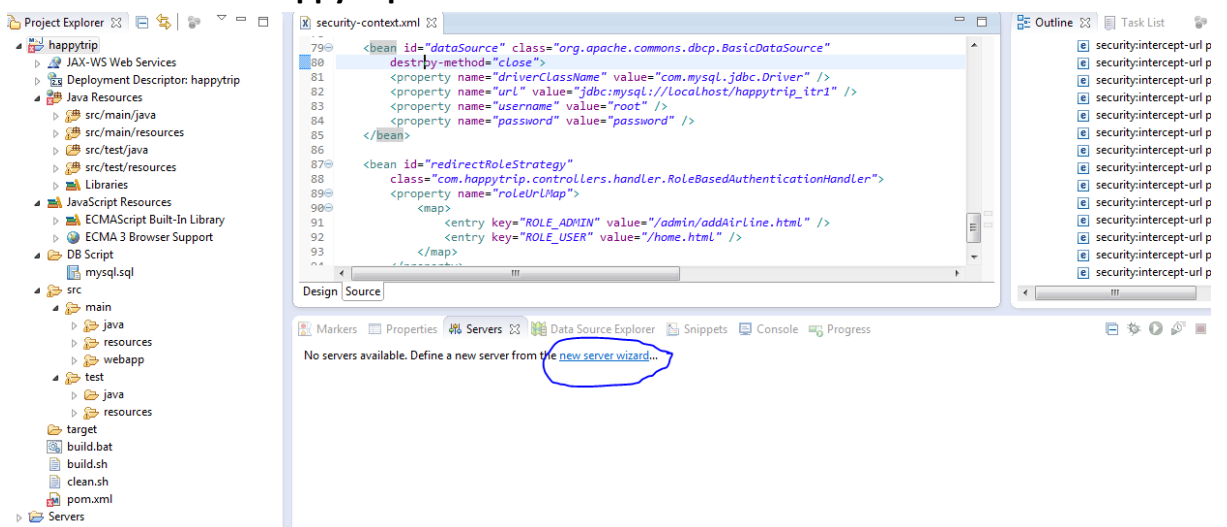

\src\main\resources\spring\security-context.xml

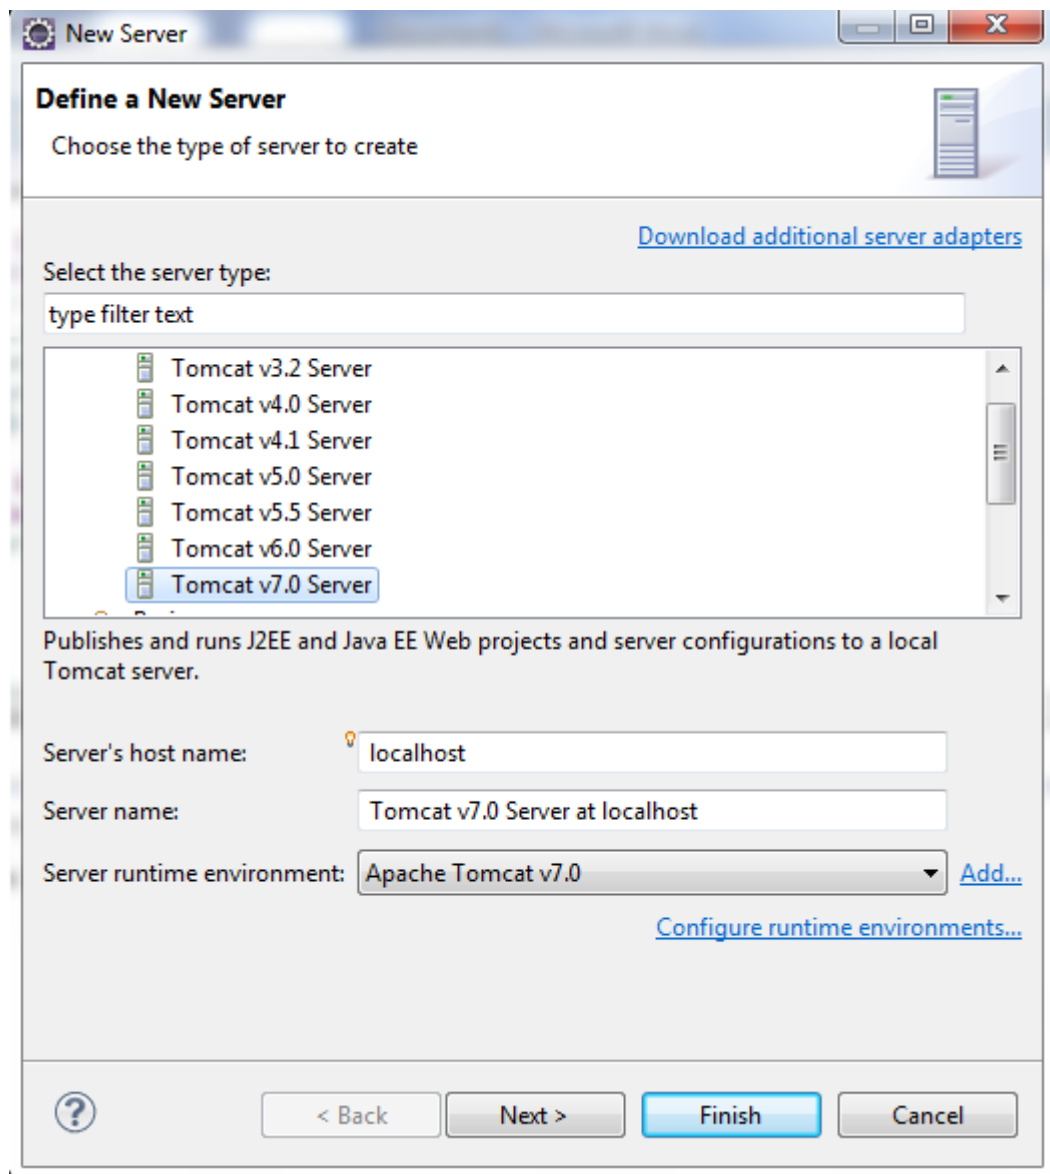

## 11. You will be able to see following things in explorer

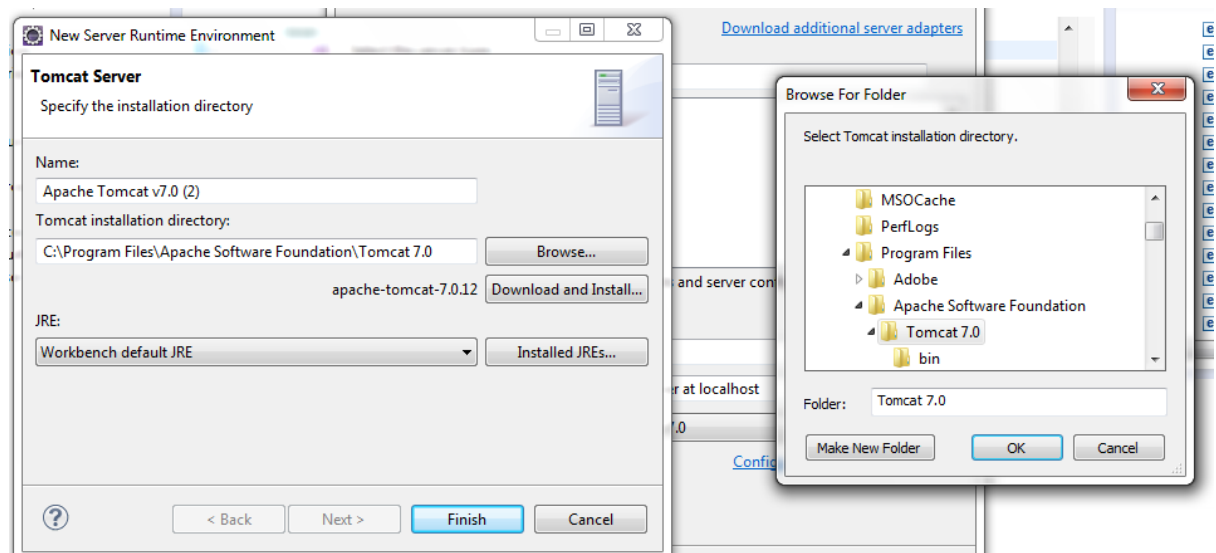

## 12. Add a Server to Run HappyTrip

### 13. Select Tomcat 7.0

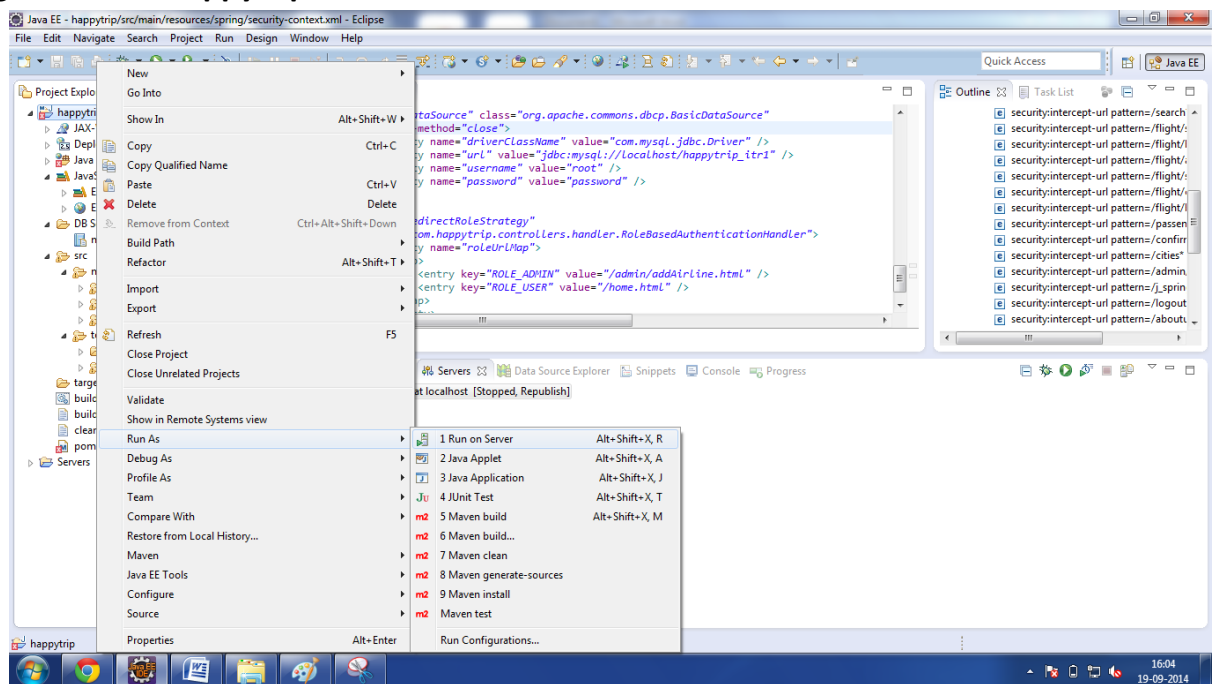

### 14. Click Next, Browse to the Tomcat location

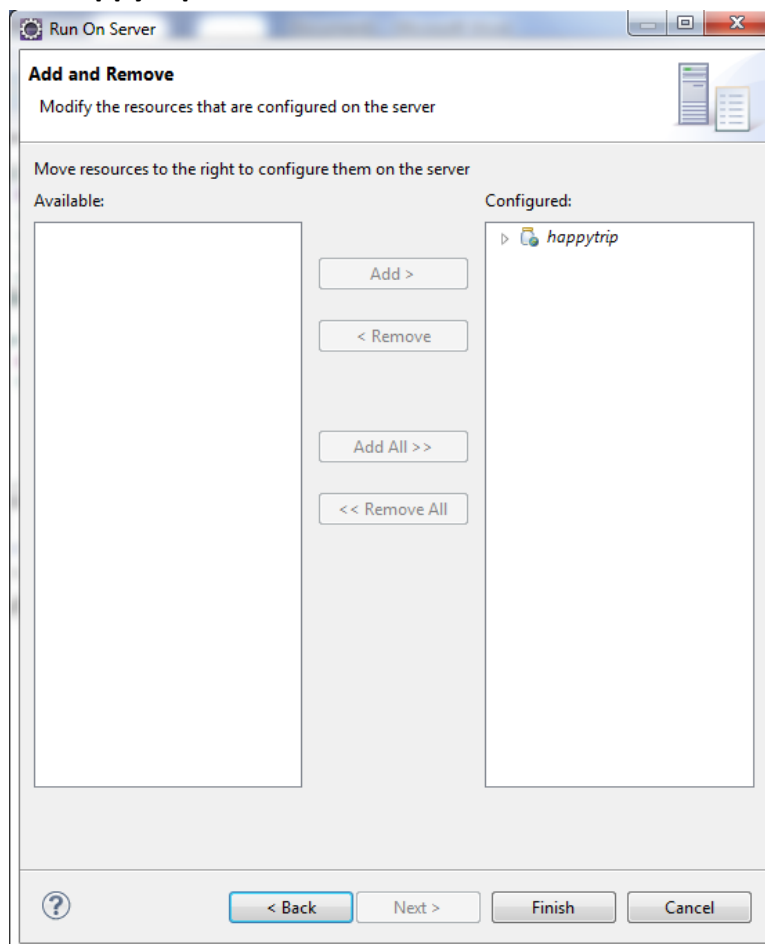

## 15. Right Click on happytrip -> run as -> run on server

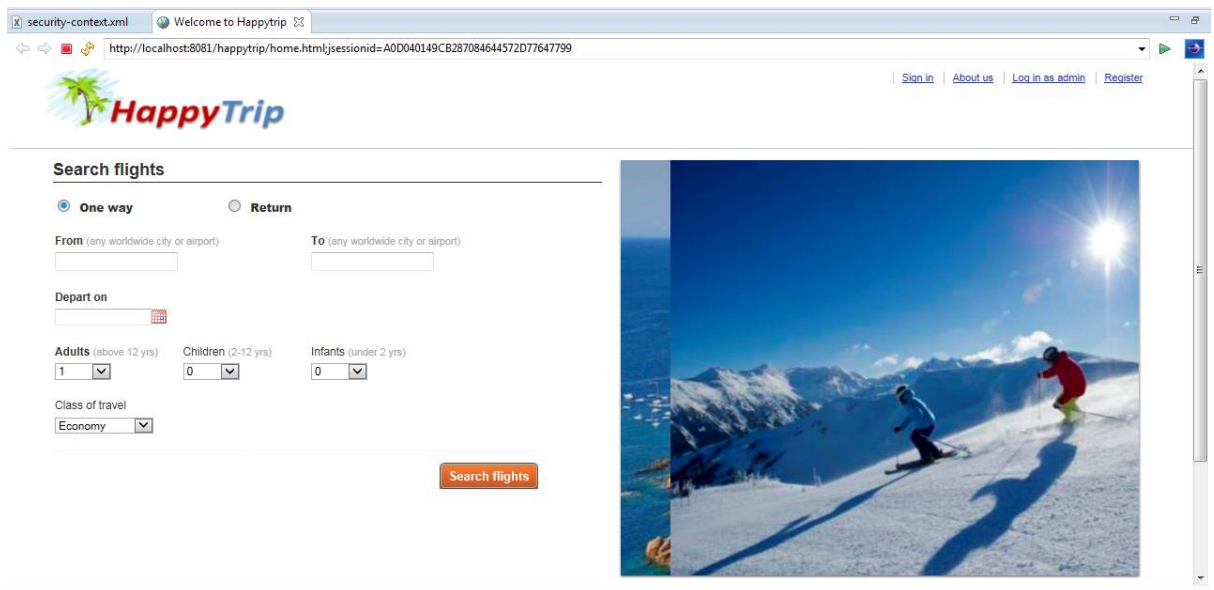

## 16. Select happytrip to run on server

## 17. Click Finish

## 18. Your HappyTrip is Up and Running

The screenshot displays the HappyTrip web application in a browser window. The browser's address bar shows the URL: `http://localhost:8081/happytrip/home.html?sessionId=A0D040149CB287084644572D77647799`. The page features the HappyTrip logo at the top left and navigation links (Sign in, About us, Log in as admin, Register) at the top right. The main content area is titled "Search flights" and includes a form with the following fields:

- One way** (selected) and **Return** (radio buttons)
- From** (any worldwide city or airport) and **To** (any worldwide city or airport) text input fields
- Depart on** date selection field
- Adults** (above 12 yrs): 1 (dropdown)
- Children** (2-12 yrs): 0 (dropdown)
- Infants** (under 2 yrs): 0 (dropdown)
- Class of travel**: Economy (dropdown)
- Search flights** button

To the right of the form is a large image showing two people skiing down a snowy mountain slope under a bright sun.

## If you are having problem

Right Click on happytrip -> Properties -> Java Build Path -> Source

Check if you have all the folders or not, if not just add it
